**COVER:** The illustration on the cover is a high contrast line conversion of a halftone on page 49 of "A Report of the Mohawk-Hudson Area Survey", Smithsonian Institution, Robert M. Vogel, ed. The structure is a gasholder house of the former Troy Gas Light Company, Troy, N.Y. A gasholder house surrounds an iron gasholder in which gas is stored until needed.

**COVER:** The illustration on the cover is from "A Treatise on the Steam Engine" by Jobn Farey (London, 1827). This ten-horsepower engine, built by Jukes Coulson and Company of London, is remarkably similar to the engine found in Haiti in 1927. Cornelius Von S. Roosevelt's interesting article on the Haiti engine begins on page 23
